

JANUARY

30 January 2018

6TH ANNUAL WWT WASTEWATER CONFERENCE AND EXHIBITION 2018

BIRMINGHAM

This event will provide attendees with the opportunity to hear all of the latest wastewater developments in infrastructure, networks, treatment and sludge with a choice of three conferences: Wastewater Infrastructure & Networks, Wastewater Treatment and Sludge. The inaugural Sludge Conference will assess the impacts of regulation and competition on sludge management, explore innovation in recycling and reuse, and address opportunities for generating more renewable energy from sludge.

For further details visit the WWT website:

(<http://wwtonline.co.uk/Event/wwt-wastewater-conference-and-exhibition-2018>) (<http://events.wwtonline.co.uk/wastewater/>) **email:** nicola.gillman@fav-house.com

30 January 2018

BRITISH WATER INNOVATION EXCHANGE WITH THAMES WATER

MADEJESKI STADIUM, READING

This Innovation Exchange will offer water and wastewater experts within the industry a chance to showcase and highlight their innovations, cost savings and advancements in the water sector, in turn providing logical solutions directly to the decision makers within Thames Water.

For further details visit the British Water website:

(<http://www.britishwater.co.uk/events/thames-water-innovation-exchange-2018-338.aspx>)

email: katie.moore@britishwater.co.uk

30 January – 1 February 2018

INTRODUCTION TO COASTAL & MARINE GIS

ABPMER OFFICES, SOUTHAMPTON

This 3-day course is delivered by ABPmer's GIS consultants and Geodata's GIS trainers. It uses case studies and hands-on activities to show how marine and coastal datasets can support decision-making.

For further details visit the CMS or Deodata website:

(<http://www.cmscoms.com/?p=11293>)

(<http://www.geodata.soton.ac.uk/geodata/training/Courses>)

email: Nicky Dewey Ndewey@abpmer.co.uk

31 January 2018

SWIG WATER & HEALTH WORKSHOP

BRISTOL

This Sensors for Water Interest Group (SWIG) workshop held jointly with the Electroanalytical Sensing Systems Group of the Royal Society of Chemistry. It will have a keynote talk from Public Health England giving an overview of waterborne disease followed by presentations from companies and researchers showcasing the latest devices and sensor technologies that are able to rapidly detect microbiological and chemical contaminants.

For further details visit the SWIG website:

(<http://www.swig.org.uk/event/water-health-workshop/>)

email: info@swig.org.uk or use the contact form on the above website.

31 January 2018

PROJECT EVALUATION: DEVELOPING A ROBUST MONITORING STRATEGY

THE BIRMINGHAM & MIDLAND INSTITUTE, BIRMINGHAM

This River Restoration Centre training course for anyone undertaking river and catchment related projects will explain how to plan your monitoring strategy based on robust project objectives, an understanding of your river, and knowledge of available monitoring techniques.

For further details visit the River Restoration Centre

website: (<http://www.therrc.co.uk/rrc-courses-and-workshops>) (http://www.therrc.co.uk/sites/default/files/files/Training/training_courses/flyer_monitoring.pdf)

email: rrc@therrc.co.uk

FEBRUARY

1 - 4 February 2018

CIWEM RIVERS AND COASTAL GROUP FLORIDA TRIP 2018

CIWEM Rivers and Coastal Group are organising a trip to the Homestead / Florida Keys area of Southern Florida. The trip will trace the system from ocean to Everglades, illustrating the challenges and highlights of how the various engineered projects seek to balance the diverse water resource demands in South Florida.

For further details visit the CIWEM website:

(<http://www.ciwem.org/events/ciwem-rivers-and-coastal-group-florida-trip-2018/>) **email:** sophie.dunajko@ciwem.org

NEW ENTRY

NEW ENTRY

2 February 2018

WORLD WETLANDS DAY

World Wetlands Day is celebrated every year on 2 February. This day marks the date of the adoption of the Convention on Wetlands on 2 February 1971, in the Iranian city of Ramsar on the shores of the Caspian Sea. The theme for 2018 is 'Wetlands for a Sustainable Urban Future'.

For further details visit the Ramsar or World Wetlands Day website: (<https://www.ramsar.org/activity/world-wetlands-day-2018>) (<http://www.worldwetlandsday.org/>)
email: ramsar@ramsar.org

5 - 6 February 2018

SNIFFER FLOOD RISK MANAGEMENT CONFERENCE 2018

UNIVERSITY OF STRATHCLYDE, TECHNOLOGY AND INNOVATION CENTRE, GLASGOW

The 2018 conference will have sessions on coastal flood risk, surface water management, and innovation in flood risk management, as well as the latest policy updates.

For further details visit the Sniffer or Eventbrite website: (<https://www.sniffer.org.uk/flood-risk-management-conference-2018>) (<https://www.eventbrite.co.uk/e/sniffer-flood-risk-management-conference-2018-tickets-39611280406>) **email:** frm@sniffer.org.uk

5 - 7 February 2018

CLIMATE CHANGE AND WATER 2018

TOURS, FRANCE

This international conference is organised by MiDi (Environments and Diversity [Milieux & Diversité]) and DREAM (Water and Environments [Eau & Milieux]). It will focus on the diversity of local responses to the impacts of climate change on water looking at the modifications occurring in the water cycle due to global changes in different environments.

For further details visit the conference website: (<http://www.climatechangeandwater.org/>)
email: alexia.soussen@univ-tours.fr

7 February 2018

BRITISH WATER WINTER RECEPTION 2018

LONDON

For the 11th year running the British Water Winter Reception will be held at the House of Lords. British Water Members, their guests and invited individuals come together to help raise the profile of the UK water industry and, in particular, the industry supply chain, which British Water represents. It is an occasion to open dialogue with new contacts, meet old friends, welcome new member companies and promote your business to key industry figures.

For further details visit the British Water website: (<http://www.britishwater.co.uk/events/british-water-winter-reception-2018-319.aspx>) **email:** info@britishwater.co.uk

12 - 15 February 2018

SNOWHYDRO 2018: INTERNATIONAL CONFERENCE ON SNOW HYDROLOGY

UNIVERSITY OF HEIDELBERG, HEIDELBERG, GERMANY

This conference is organized by the Professorship of Hydrology and Climatology at the Department of Geography, Heidelberg

University. It aims to present recent research findings in all areas of snow hydrology, to facilitate scientific discussions and to provide opportunities for collaboration and cooperation. On 15 February 2018 there will be an excursion to the Black Forest (snow cover development, snow monitoring, winter tourism, National Park etc.).

Further information is available on the University of Heidelberg website: (<http://www.geog.uni-heidelberg.de/hydro/snow2018.html>)
email: snowhydro18@uni-heidelberg.de

13 February 2018

POLICY PRIORITIES FOR PROTECTING NATURAL CAPITAL IN ENGLAND AND THE ROLE OF A 25-YEAR ENVIRONMENT PLAN

LONDON

This Westminster Energy, Environment & Transport Forum Keynote Seminar will provide an opportunity to discuss policy priorities for protecting the environment and conserving natural capital. Delegates will consider key elements of the Government's 25-year Environment Plan - due to be introduced by the Environment Secretary by the start of 2018 - which will be informed by the Natural Capital Committee's recent report.

For further details visit the Westminster Forum Projects website: (<http://www.westminsterforumprojects.co.uk/conference/natural-capital-18>) (<http://www.westminsterforumprojects.co.uk/book/natural-capital-18>) **email:** info@forumsupport.co.uk

13 February 2018

INTRODUCTION TO HYDROMORPHOLOGY FOR RIVER RESTORATION AND NFM

WILMSLOW, GREATER MANCHESTER

This River Restoration Centre training course, featuring field-based demonstration on the Bollin River, will introduce participants to hydromorphology. The course will cover aspects of geomorphology and hydrology, and will enable improved outcomes in the related fields of river restoration, green infrastructure for bank protection, ecology and natural flood management (NFM).

For further details visit the River Restoration Centre website: (<http://www.therrc.co.uk/rrc-courses-and-workshops>) (http://www.therrc.co.uk/sites/default/files/general/Training/RRC_Courses_Workshops/2018/intro_to_hydromorphology_flyer.pdf) **email:** rrc@therrc.co.uk

13 - 14 February 2018

GAME & WILDLIFE CONSERVATION TRUST SOIL & WATER 2018

LODDINGTON, LEICESTERSHIRE

This GWCT conference for farmers, researchers and policy makers celebrates 25 years of research into soils, water and the environment and provides attendees with an opportunity to influence the future research programme and inform future policy decisions.

For further details visit the GWCT or Eventbrite website: (<https://www.gwct.org.uk/news/news/2018/january/engaging-soil-and-water-conference-upcoming-at-the-allerton-project/>) (<https://www.eventbrite.co.uk/e/gwct-soil-water-2018-tickets-41005942879>)
email: Katy Machin kmachin@gwct.org.uk

15 – 16 February 2018

ICSWRM 2018: 20TH INTERNATIONAL CONFERENCE ON SUSTAINABLE WATER RESOURCES MANAGEMENT

LONDON

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of sustainable water resources management.

Further information is available on the WASET website:
(<https://www.waset.org/conference/2018/02/london/ICSWRM>)
email: info@waset.org

15 - 16 February 2018

ICWRSD 2018: 20TH INTERNATIONAL CONFERENCE ON WATER RESOURCES SUSTAINABLE DEVELOPMENT

LONDON

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Water Resources Sustainable Development.

Further information is available on the WASET website:
(<https://www.waset.org/conference/2018/02/london/ICWRSD>)
email: info@waset.org

16 – 19 February 2018

STIWM 2018: INTERNATIONAL CONFERENCE ON SUSTAINABLE TECHNOLOGIES FOR INTELLIGENT WATER MANAGEMENT 2018

ROORKEE, INDIA

This conference is organised by Department of Water Resources Development and Management - Indian Institute of Technology, Roorkee and Indian Water Resources Society (IWRS). It will provide an opportunity to policy makers, academicians, researchers, and students to share their experiences and knowledge by the presentation of fundamental/applied scientific advances made in the field of water resources engineering and management for sustainable development.

For further details visit the conference website:
(<http://www.iwrs.org.in/stiwm/>) **email:** secretaryiwrs@gmail.com

20 February 2018

DESIGN OF ACTIVATED SLUDGE SYSTEMS

AQUA ENVIRO EVENT SUITE, WAKEFIELD

This Aqua Enviro training module will review the design of each of the aspects of a modern treatment plant, presenting a theoretical background to aid understanding, and providing the design equations by means of worked examples, that are necessary for effective plant design.

For further details visit the Aqua Enviro website:
(<http://www.aquaenviro.co.uk/courses/design-of-activated-sludge-systems-2/>) **email:** clarehunter@aquaenviro.co.uk

20 February 2018

ARE WE READY FOR CLIMATE CHANGE?

THE STUDIO, BIRMINGHAM

British Water's first climate change conference is held in partnership with the Committee on Climate Change. It aims to explore UK water industry specific threats and propose sustainable solutions to reduce the effects on assets and ensure constant supply.

For further details visit the British Water website:
(<http://www.britishwater.co.uk/events/are-we-ready-for-climate-change-18-332.aspx>) **email:** info@britishwater.co.uk

20 - 21 February 2018

WORLD WATER-TECH INNOVATION SUMMIT 2018

LONDON

This event for industry leaders aims to explore how innovation can be harnessed to address the most urgent issues facing the world's water supply. It will include a session on microplastics - 'Under the Microscope: The Plastic Problem in Need of a New Technological Solution'.

For further details visit the summit website:
(<http://worldwatertechinnovation.com/>)
email: info@rethinkevents.com or stephan.groves@rethinkevents.com

21 February 2018

OPERATION & CONTROL OF ACTIVATED SLUDGE PLANTS

AQUA ENVIRO EVENT SUITE, WAKEFIELD

This Aqua Enviro training course covers each aspect of treatment plant operation, providing the practical background and worked examples to enable all attendees to put together their own operating strategies and to identify and rectify problems when these occur.

For further details visit the Aqua Enviro website:
(<http://www.aquaenviro.co.uk/courses/operation-control-of-activated-sludge-plants/>) **email:** clarehunter@aquaenviro.co.uk

21 February 2018

CIWEM URBAN DRAINAGE GROUP TRAINING DAY 2018

AUSTIN COURT, BIRMINGHAM

This training day will provide an opportunity to consider the work that went in to updating the UDG Code of Practice for Hydraulic Modelling and to discuss how this represents best practice. In the afternoon delegates will hear from experts from the Environment Agency, Local Government and expert consultants about the approach to building business cases and subjects such as cost benefit assessment, Willingness to Pay and Grant in Aid.

For further details visit the CIWEM website:
(<http://www.ciwem.org/events/urban-drainage-group-training-day-2018/>)
email: events@ciwem.org

21 - 22 February 2018

BEYOND MARINE SPATIAL PLANNING: A Training Course in Delivering Integrated Marine Management

LONDON

This Howell Marine Consulting course covers broad principles of government decision making from policy to regulation using examples from around the world; an introduction to Integrated Marine Management and how this helps understand the complexity of delivering marine policy; and the practical delivery of Integrated Marine Management within government.

For further details visit the Howell Marine Consulting website: (<http://www.howellmarine.co.uk/training.html>)
email: dickon@howellmarine.co.uk

22 February 2018

MICROSCOPIC EXAMINATION FOR THE OPERATION & CONTROL OF WASTEWATER TREATMENT PLANTS

AQUA ENVIRO EVENT SUITE, WAKEFIELD

This Aqua Enviro training course covers microscopic examination of the microbial consortium in the treatment plant which provides extensive information as to the likely causes of plant problems. The results can also be used to optimize the performance of the plant to ensure that effluent is as good as the plant is able to produce and that energy costs and sludge production are at a minimum.

For further details visit the Aqua Enviro website: (<http://www.aquaenviro.co.uk/courses/microscopic-examination-for-the-operation-control-of-wastewater-treatment-plants/>) **email:** clarehunter@aquaenviro.co.uk

22 February 2018

9TH ANNUAL WWT WATER NORTHERN IRELAND CONFERENCE

BELFAST

This event for senior stakeholders in the Northern Ireland water sector will look at proposals for PC21 and the transition to a post-Brexit world. It aims to provide insights to deliver a water sector that works for all stakeholders.

For further details visit the WWT website: (<http://events.wwtonline.co.uk/ni/>)
email: nicola.gillman@fav-house.com

22 February 2018

CIWEM WEST MIDLANDS BRANCH: BRINGING FLOOD MODELLING TO YOUR COMMUNITY

UNIVERSITY OF BIRMINGHAM, BIRMINGHAM

This evening workshop will allow those involved in flood risk management, in the Birmingham area, to learn and share modelling and hydrological best practice, with reference to the application of Flood Modeller to projects. The event will include presentations from various users, including CH2M, WSP and AECOM, who will discuss local case studies.

For further details visit the CIWEM website: (<http://www.ciwem.org/events/ciwem-west-midlands-branch-bringing-flood-modelling-to-your-community/>)
email: rebecca.bailey@ch2m.com

22 - 24 February 2018

AWA/IWA YOUNG WATER PROFESSIONALS CONFERENCE 2018

MELBOURNE, AUSTRALIA

This 5th Australian Young Water Professionals Conference is presented by the Australian Water Association and the International Water Association. The theme is Connect. Collaborate. Accelerate. Collaboration between industry, research and government will continue to be explored as well as the value of connections. Acceleration will cover not only how ideas can be accelerated into action for a sustainable water future, but how young water professionals can accelerate their professional development.

For further details visit the Australian Water Association website: (www.awa.asn.au)
email: rgoedecke@awa.asn.au

28 February 2018

INSTITUTE OF WATER MIDLANDS BRANCH: SERVING OUR CUSTOMERS OF THE FUTURE What Will Customers of the Future Want and How Can We Achieve It?

SEVERN TRENT CENTRE, ST JOHN'S STREET, COVENTRY

This event will highlight future customer trends and where we will need to adapt our approach to meet these. This will be followed by an open discussion on how the water industry can meet these future challenges.

For further details visit the Institute of Water website: (<https://www.instituteofwater.org.uk/events-info/776/>)
email: rose.jolly@severntrent.co.uk

28 February – 1 March 2018

ICWMM: 51ST INTERNATIONAL CONFERENCE ON WATER MANAGEMENT MODELING

TORONTO, CANADA

ICWMM is organised by Computational Hydraulics International (CHI). It brings together professionals from around the world to exchange ideas on current practices and emerging technologies in water management. Emphasis is on state-of-the-art computer modeling for resolving water quantity and quality problems in stormwater, wastewater, watershed and water distribution systems.

For further details visit the conference website: (<https://www.icwmm.org/>) **email:** info@chiwater.com

MARCH

1 March 2018

18TH WATER UK CITY CONFERENCE

LONDON

This financial event for the water sector brings together over 160 industry leaders, regulators and government bodies alongside investors, analysts, ratings agencies and city institutions, providing a forum to debate the industry's challenges and its future direction.

For further details visit the Water UK website: (<https://www.water.org.uk/wateruk-events/city-conference-2018>)
email: Beth Faircliffe bfaircliffe@water.org.uk

1 March 2018**NATURAL CAPITAL INVESTMENT CONFERENCE****BRITISH LIBRARY, LONDON**

This conference is organised by the Ecosystems Knowledge Network and will identify the best ways of securing investment in the UK's natural environment including finding new ways of financing the restoration of key natural features such as woodland and wetland. The Rt Hon. John Gummer, Lord Deben, recently re-appointed Chair of the UK's Committee on Climate Change, will provide the opening address. He will be followed by presentations from environmental and finance leaders involved in natural capital investment.

For further details visit the EKN website:

(<https://ecosystemsknowledge.net/naturalcapitalconference>)

email: info@ecosystemsknowledge.net

5 - 9 March 2018**WASH FUTURES 2018****BRISBANE, AUSTRALIA**

This conference is hosted by the International WaterCentre in partnership with the Australian Government Department of Foreign Affairs and Trade. The program comprises a two day conference and three days of training workshops, and will explore the core theme of Collaboration for universal WASH. The conference brings together WASH actors from around the globe to share innovations and evidence about ways to achieve a WASH future in which the water, sanitation and hygiene needs of all in society are sustained.

For further details visit the WASH Futures website:

(<http://washfutures.com/>)

email: Danielle Gadanyi danielle@loud.events

6 March 2018**ANNUAL WATERWISE WATER EFFICIENCY CONFERENCE 2018****LONDON**

This Waterwise annual conference is an opportunity for key stakeholders and players in water efficiency - from water companies, product manufacturers, policy makers, NGOs, academics, and more - to come together to discuss developments and issues.

Further information is available on the Waterwise

website: (<http://www.waterwise.org.uk/events.php/45/waterwise-annual-conference-2018>)

email: info@waterwise.org.uk

6 March 2018**BRITISH WATER FATS, OILS AND GREASE CONFERENCE 2018****CRANFIELD UNIVERSITY, CRANFIELD, BEDFORDSHIRE**

This event is organised by British Water in collaboration with Cranfield University. It will present theory and stories of success on behavioural management, collaboration, and new technologies applied throughout the entire FOG cycle.

Further information is available on the British Water

website: (<http://www.britishwater.co.uk/events/fog-fats-oils-and-grease-conference-341.aspx>)

email: info@britishwater.co.uk

6 - 8 March 2018**GOOD PRACTICE STAKEHOLDER PARTICIPATION:****With a Focus on the Environment****NR EAST BRABOURNE, KENT**

This Dialogue Matters training course will help participants understand the principles of stakeholder participation and train them in practical facilitation skills and process design.

For further details visit the CMS or Dialogue Matters

website: (<http://www.cmscoms.com/?p=12434>)

(<http://www.dialoguematters.co.uk/>)

email: training@dialoguematters.co.uk

7 March 2018**SWIG WORKSHOP: LATEST DEVELOPMENTS IN WATER SENSORS****CAMBRIDGE**

This Sensors for Water Interest Group (SWIG) workshop is held jointly with the Electroanalytical Sensing Systems Group (EASSG) of the Royal Society of Chemistry. It will highlight developments and improvements to sensors and sensing technologies. It will discuss how information supplied from reliable sensors is vital for the development of big data analytics and creates the options for novel applications and alternative measurements.

For further details visit the SWIG website:

(<http://www.swig.org.uk/event/latest-developments-in-water-sensors/>) **email:** rosa.richards@swig.org.uk

8 March 2018**WATER QUALITY: THE CHALLENGE OF DISTRIBUTING WATER VIA AGEING PIPES****BIRMINGHAM**

This Aqua Enviro conference will consider the challenges to network operators of maintaining such high levels of service as water passes through ageing infrastructure and pipework.

Further information is available on the Aqua Enviro

website: (<http://www.aquaenviro.co.uk/events/conferences/water-quality-challenge-distributing-water-via-ageing-pipes/>)

email: clarehunter@aquaenviro.co.uk

8 - 10 March 2018**ICFRMWP 2018: INTERNATIONAL CONFERENCE ON FLOOD RISK MANAGEMENT AND WATER POLLUTION 2018****HONG KONG**

This event will focus on upcoming areas of Flood Risk Management and Water Pollution. It will include technical papers, keynote addresses and networking opportunities.

Further information is available on the Core Conferences

website: (<http://icfrmwp.coreconferences.com/>) **email:** mail@coreconferences.com

10 - 14 March 2018**WRRmod 2018: 6TH IWA/WEF WATER RESOURCE RECOVERY MODELLING SEMINAR****LAC BEAUPORT, QUEBEC CITY REGION, CANADA**

WRRmod 2018 is the sixth seminar in the biennial modelling seminar series started in 2008 under the name WWTmod, wastewater treatment modelling. The main objective of the seminar is to disseminate recent findings and case studies

with an aim to build consensus, and develop best practices for the most pressing challenges faced by the water resource recovery industry.

For further details visit the conference website:
(<http://www.wrrmod2018.org/>) **email:** info@wrrmod2018.org

13 - 14 March 2018

9TH GLOBAL LEAKAGE SUMMIT 2018: Ensuring Efficiency, Resilience and Sustainability: Industry Stakeholders Working Together to Reduce Network Leakage and Customer Demand

LONDON

This event is organised by London Business Conferences and will provide an international platform for leakage practitioners, and all those in the business of delivering improved efficiency for their particular water utility. It will feature examples of delivering and maintaining reduced leakage levels across the world.

For further details visit the conference website:
(<http://www.global-leakage-summit.com/>)
email: info@london-business-conferences.co.uk or use the contact form on the above website.

13 - 14 March 2018

WEX GLOBAL 2018: The Water and Energy Exchange

LONDON

Now in its 10th year, WEX Global is a meeting place for people in the leading organisations in the world of water and energy. A programme of one to one meetings are combined with a conference of expert speakers and numerous other networking opportunities.

For further details visit the WEX Global website:
(<http://wex-global.com/>)
email: info@wex-global.com

13 - 16 March 2018

RIVER HABITAT SURVEY CERTIFICATION COURSE

CARDIFF UNIVERSITY HALL, CARDIFF

This course is organised by the River Restoration Centre and will cover all aspects of the RHS methodology. There will be field work at a variety of sites to give participants practical experience. A field and written test will take place on the last day of the course. The course will also feature presentations on applications and a hands-on session on Habitat Quality Assessment and context analysis using a new software for data input, QA and analysis.

For further details visit the RRC or River Habitat Survey website: (<http://www.therrc.co.uk/rrc-courses-and-workshops>) (http://www.riverhabitatsurvey.org/event/river-habitat-survey-certification-course-2018-3/?instance_id=116)
email: Marc Naura training@therrc.co.uk

14 March 2018

WORKING WITH NATURAL PROCESSES: The Evidence Behind Natural Flood Management

EDINBURGH

This conference, which is being jointly coordinated by the Environment Agency, CIWEM and SEPA, is one of series of events to launch the Environment Agency's 'Working with Natural Processes Evidence Base'. The conference will also launch the NFM Network Scotland. This Scottish Government

led initiative aims to provide a focal point for NFM practitioners to share knowledge, research and experience in practical aspects of assessing and implementing NFM.

For further details visit the CIWEM website:
(<http://www.ciwem.org/events/working-with-natural-processes-the-evidence-behind-natural-flood-management-edinburgh/>) **email:** events@ciwem.org

14 March 2018 ABOUT DROUGHT SHOWCASE: Maximising the Impact of UK Research on Drought & Water Scarcity

BIRMINGHAM

The NERC 'About Drought Showcase' presents an opportunity to discover more about the outputs emerging from the £12 million five-year research council-funded UK Droughts & Water Scarcity programme. It is aimed at all involved in supporting improved decision-making and communication in relation to droughts and water scarcity for a range of sectors.

For further details visit the NERC or About Drought website:

(<http://www.nerc.ac.uk/research/funded/programmes/droughts/news/aboutdrought/>)
(<http://aboutdrought.info/drought-and-water-scarcity-programme-showcase-event/>)
email: endows@ceh.ac.uk

15 March 2018

CRYPTOSPORIDIOSIS 2018: AN ESSENTIAL UPDATE ON THE RISKS FROM RECREATIONAL WATERS, DRINKING WATER & FOOD

LONDON

This conference from the RSPH and the Cryptosporidium Reference Unit, Public Health Wales, will not only provide the background but also new information from Cryptosporidiosis outbreaks, and ongoing research in both recreational waters and drinking water and food.

For further details visit the Royal Society for Public Health website:

(<https://www.rsph.org.uk/event/cryptosporidiosis--an-essential-update-on-the-risks-from-recreational-waters--drinking-water---food.html>)
email: Please use the contact form on the above website.

15 - 16 March 2018

ICWRBM 2018: 20TH INTERNATIONAL CONFERENCE ON WATERSHED AND RIVER BASIN MANAGEMENT

PARIS, FRANCE

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of watershed and river basin management.

For further details visit the WASET website:
(<https://waset.org/conference/2018/03/paris/ICWRBM>)
email: info@waset.org

18 – 21 March 2018

IWA BIOFILMS: GRANULAR SLUDGE CONFERENCE 2018

DELFT UNIVERSITY OF TECHNOLOGY, THE NETHERLANDS

Granular sludge offers a way to efficiently retain biomass and to intensify biological wastewater treatment processes. This conference aims to critically discuss the state-of-the-art of granular sludge and to anticipate future developments.

For further details visit the conference website:

(<http://www.granularsludgeconference.org/>)

email: Mrs. Miranda Verhulst gsc-tnw@tudelft.nl

18 – 23 March 2018

8TH WORLD WATER FORUM

BRASILIA, BRAZIL

The 8th World Water Forum is organised by the World Water Council and will gather the experts, managers and organisations involved water issues all over the world. The online consultation will be open from February 2017 as an open platform for collaborating and influencing the Forum's discussions.

Further information is available on the World Water

Forum website: (<http://www.worldwaterforum8.org/>)

email: esecretariat@adasa.df.gov.br or use the contact form on the above website.

20 - 21 March 2018

THE FUTURE OF UTILITIES: The UK's Leading Energy & Water Summit

LONDON

This Marketforce conference will provide an opportunity to bring together leaders from across sectors to discuss new ideas, key issues and major changes that utilities are facing in a fast changing world. Speakers from the water sector include Heide Mottram OBE, CEO Northumbrian Water and Cathryn Ross, Chief Executive Ofwat.

Further information is available on the Marketforce

website: (<http://www.marketforce.eu.com/events/utilities-conference/future-of-utilities>)

email: enquiries@marketforce.eu.com

20 – 22 March 2018

FLOOD & COAST 2018

TELFORD, SHROPSHIRE

This conference and exhibition is led by the Environment Agency and organised by Trio (Events) Ltd. It attracts key stakeholders from the flood and coastal erosion risk management (FCRM) community to exchange a broad range of perspectives on innovation and best practices. The key themes are 'Shared ownership and action', 'Building resilience' and 'Future challenges and innovation'.

Further information is available on the conference

website: (<https://www.floodandcoast.com/>)

email: info@floodandcoast.com

20 – 22 March 2018

CHALLENGE OF SCIENCE LEADERSHIP TRAINING COURSE

ST EDMUND'S COLLEGE, UNIVERSITY OF CAMBRIDGE, CAMBRIDGE

CSL is run by the Barefoot Thinking Company and is delivered in conjunction with academic partner, Plymouth University Marine Institute. The aim of the course is to provide scientists,

academics and professionals working in the environment and sustainability sectors with a toolkit to help them lead and facilitate effective innovation, communication and collaboration.

For further details visit the CSL or Eventbrite website:

(<https://www.scienceleadership.co.uk/wp-content/uploads/2018/01/cambridge-mar-2018.pdf>)

(<https://www.eventbrite.co.uk/e/the-challenge-of-science-leadership-training-course-tickets-39474673812>)

email: info@barefoot-thinking.com

21 March 2018

BEYOND BIM: PREPARING FOR DIGITAL BUILT BRITAIN AND PR19

VILLA PARK, BIRMINGHAM

This 5th British Water BIM Conference is held in association with MWH and BIM4Water. The water industry understanding of BIM is now maturing and blending into the digital transformation that is taking place across all sectors of industry and impacting the expectations of customers. This conference will hear from a wide range of stakeholders, including Owner Operators and the supply community and give you the opportunity to ask your questions and give your input.

For further details visit the British Water website:

(<http://www.britishwater.co.uk/events/bim-conference-2018-344.aspx>)

email: info@britishwater.co.uk

21 - 22 March 2018

18TH WATER UK LEAKAGE CONFERENCE

BIRMINGHAM

This conference brings together industry experts, stakeholders, government and regulators to exchange ideas, share innovation insights and provide the latest findings in leakage management. It will discuss the role of leakage in companies' published draft water resource management plans for resilient and secure supplies – have they met government and stakeholder expectations on leakage, and what changes are likely as companies work towards final plans later in the year? There will be a pre-conference dinner on 21 March.

For further details visit the Water UK website:

(http://www.waterukevents.co.uk/view_event.php?eventid=104&&dateid=118)

email: Beth Faircliffe bfaircliffe@water.org.uk

22 March 2018

WORLD WATER DAY 2018

World Water Day is held annually on 22 March as a means of focusing attention on the importance of freshwater and advocating for the sustainable management of freshwater resources. The theme for 2018 is 'Nature-based Solutions for Water'.

Further information is available on the UN Water

website: (<http://www.unwater.org/campaigns/world-water-day/en/>)

email: unwater@un.org

23 – 24 March 2018

ICAIWM 2018: 20TH INTERNATIONAL CONFERENCE ON ADAPTIVE AND INTEGRATIVE WATER MANAGEMENT

PRAGUE, CZECH REPUBLIC

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results.

It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of adaptive and integrative water management.

Further information is available on the WASET website: (<https://www.waset.org/conference/2018/03/prague/ICAIWM/home>)
email: info@waset.org

23 - 25 March 2018

WRMPC 2018: INTERNATIONAL SYMPOSIUM ON WATER RESOURCES MANAGEMENT AND POLLUTION CONTROL

GUILIN, CHINA

This Conference will cover issues on Water Resources Management and Pollution Control and aims to create a forum for exchanging the latest research results and sharing the advanced research methods in related fields.

For further details visit the Engineering Information Institute website: (<http://www.engii.org/conference/WRMPC2018/>) **email:** epph@engii.org

25 - 28 March 2018

AWWA SUSTAINABLE WATER MANAGEMENT CONFERENCE

SEATTLE, WASHINGTON, USA

This American Water Works Association conference aims to present solutions for balancing the benefits of conservation with the costs, managing water resources, sustainable utilities and infrastructure, urban planning and design, energy efficiency, water conservation, stormwater and reuse.

For further details visit the AWWA website: (<https://www.awwa.org/conferences-education/conferences/sustainable-water-management.aspx>)
email: service@awwa.org

28 - 29 March 2018

BEYOND MARINE SPATIAL PLANNING: A Training Course in Delivering Integrated Marine Management

EDINBURGH

This Howell Marine Consulting course covers broad principles of government decision making from policy to regulation using examples from around the world; an introduction to Integrated Marine Management and how this helps understand the complexity of delivering marine policy; and the practical delivery of Integrated Marine Management within government.

For further details visit the Howell Marine Consulting website: (<http://www.howellmarine.co.uk/training.html>)
email: dickon@howellmarine.co.uk

APRIL

10 - 12 April 2018

ASIAWATER 2018

KUALA LUMPUR, MALAYSIA

ASIAWATER is a platform that brings together the central government, industry, and the consumers to exchange ideas and experiences and obtain the latest technological advances in water supply, wastewater treatment and sanitation.

The conference programme is designed to help participants find solutions to a variety of industry issues.

Further information will be made available on the ASIAWATER website: (<http://www.asiawater.org/>)
email: asiawater-my@ubm.com

12 April 2018

PROTECTING THE UK'S WATER QUALITY: Tackling Pollution and Building Sustainability for the Future

PLYMOUTH

This Public Policy Exchange symposium will provide an opportunity for local authorities, non-departmental public bodies, water companies, the environmental sector and other key stakeholders to engage with the Government's objectives to maximise water quality, and explore how local communities can find cost-effective ways to further tackle pollution and improve our water environment

For further details visit the Public Policy Exchange website: (<http://www.publicpolicyexchange.co.uk/events/ID12-PPE?ss=em&tg=1a>)
email: info@publicpolicyexchange.co.uk

13 April 2018

SOUTH WEST MARINE ECOSYSTEMS CONFERENCE 2018

PLYMOUTH UNIVERSITY, PLYMOUTH

The SWME annual conferences began in 2006 with objectives focusing on networking, annual events and recording, ecology of marine species, management of south west marine ecosystems, and marine education and outreach.

Further information will be made available on the SWME website: (<http://swmecosystems.co.uk/>)
email: bob.earll@coastms.co.uk

15 - 17 April 2018

GLOBAL WATER SUMMIT 2018

PARIS, FRANCE

This is the 12th Global Water Summit where water business leaders, industrial water users, utility managers, leading water technology providers and major investors come together to determine water's key role in sustainable economic growth and to meet with potential partners, suppliers and clients.

For further details visit the Water Meets Money website: (<http://www.watermeetsmoney.com/>)
email: Abigail Smith asmith@globalwaterintel.com or use the contact form on the above website.

16 - 18 April 2018

NEXUS: WATER, FOOD, ENERGY AND CLIMATE

UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, NORTH CAROLINA, USA

This is the second Nexus Conference organised by The Water Institute at the University of North Carolina. The conference brings together scientists, academics, practitioners, and other stakeholders to focus on how the nexus approach can be used on local and international levels. It will include reviews of the implementation of the relevant SDGs that address nexus issues.

Further information will be made available on the UNC website: (<http://waterinstitute.unc.edu/conferences/nexus-2018/>) **email:** waterinstitute@unc.edu

16 – 18 April 2018

19TH UK-IWA YOUNG WATER PROFESSIONALS CONFERENCE: Towards a Resilient Water Future

CRANFIELD UNIVERSITY, CRANFIELD, BEDFORDSHIRE

The UK-YWP is an opportunity for young water professionals to network, share skills, ideas and opportunities. The Conference will have a mix of regular sessions, keynotes, PICO poster sessions, career fair, social and technical visits, and much more. This year's theme is 'Towards a Resilient Water Future' and participants will be able to show how their work is contributing to achieve this goal.

For further details visit the Institute of Water or Cranfield University website:

(<https://www.instituteofwater.org.uk/events-info/765/>)

(<https://www.cranfield.ac.uk/events/events-2018/iwa-young-water-professionals-conference>)

email: iwaukywp@gmail.com

17 – 18 April 2018

TWENTY65 CONFERENCE: BRINGING THE WATER SECTOR TOGETHER: Innovation through Collaboration to Secure a Sustainable Future

MANCHESTER

The annual TWENTY65 conference provides an opportunity for researchers, practitioners, water companies, technology developers, policy makers and regulators to network and learn together to help pave the way for a future that delivers sustainable clean water for all.

Further information will be made available on the Twenty65 website: (<https://twenty65.ac.uk/annual-conference>) **email:** twenty65@sheffield.ac.uk

18 April 2018

SENSORS FOR WATER AND WASTEWATER MAINTENANCE: Maintaining the Value of Online Monitoring in Challenging Environments

MANCHESTER

This Sensors for Water Interest Group (SWIG) event will focus on three areas: instrument design – designing for reliability, availability and maintainability; service models – how the supply chain can add value; and end users – how can we ensure trust in data.

For further details visit the SWIG website:

(<http://www.swig.org.uk/event/sensors-for-water-and-wastewater-maintenance-maintaining-the-value-of-online-monitoring-in-challenging-environments/>)

email: rosa.richards@swig.org.uk

19 – 20 April 2018

ICWRRED 2018: 20TH INTERNATIONAL CONFERENCE ON WATER RESOURCES AND RENEWABLE ENERGY DEVELOPMENT

BOSTON, USA

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to

exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of water resources and renewable energy development.

Further information will be made available on

the WASET website: (<https://www.waset.org/conference/2018/04/boston/ICWRRED>) **email:** info@waset.org

21 April 2018

WORLD FISH MIGRATION DAY 2018

The World Fish Migration Day (WFMD) is a one day global-local event to create awareness on the importance of open rivers and migratory fish. It is coordinated by the World Fish Migration Foundation.

For further details visit the WFMD website:

(<http://www.worldfishmigrationday.com/>)

email: info@fishmigration.org

23 - 24 April 2018

2ND INTERNATIONAL CONVENTION ON WATER: Multi-Perspective Exploration of Water for Sustainable Development

DUBAI, UEA

Water Convention 2018 is organised by Conference Series Ltd as a platform for global networking bringing together speakers, researchers, and business leaders. It will include keynote presentations, Poster presentations interactive sessions and exhibitions.

For further details visit the Conference Series website:

(<https://waterresource.conferenceseries.com/>)

email: waterconservation@enggconferences.com

24 April 2018

DIGESTER OPERATION AND MAKING THE MOST OF THE DIGESTATE

AQUA ENVIRO EVENT SUITE, WAKEFIELD

This Aqua Enviro training course provides operators, managers, designers and engineers with real life examples of digestion of different materials, successes and failures as they are faced with the challenges of increasing energy production whilst minimising the costs associated with digestate disposal/recycling.

For further details visit the Aqua Enviro website:

(<http://www.aquaenviro.co.uk/courses/anaerobic-digestion-bioresources-training/>) **email:** clarehunter@aquaenviro.co.uk

24 April 2018

PANG VALLEY FLOOD FORUM MEETING

PANGBOURNE VILLAGE HALL, PANGBOURNE, READING

This is the quarterly meeting of The Pang Valley Flood Forum which was set up in January 2013 as a joint initiative by West Berkshire Council, the Environment Agency and Thames Water. The Forum is run by volunteers working collaboratively to reduce flood risk throughout the communities in the Pang Valley.

For further details visit the Forum website:

(<http://www.floodalleviation.uk/>)

email: pangvalleyfloodforum@gmail.com

24 - 25 April 2018

RIVER RESTORATION CENTRE 19TH ANNUAL NETWORK CONFERENCE: River Restoration: Engaging with Rivers

DE VERE EAST MIDLANDS CONFERENCE CENTRE, NOTTINGHAM

This 2018 RRC conference aims to discuss important issues and support the restoration of our rivers. The format will be similar to last year with a mix of 15 minute presentations, workshops and site visits. It will include success stories and lessons learnt on a variety of projects.

Further information is available on the RRC website: (<http://www.therrc.co.uk/rrc-annual-conference-2018>)
email: rrc@therrc.co.uk

25 April 2018

MARINE ECOSYSTEMS RESEARCH PROGRAMME STAKEHOLDER SYMPOSIUM

LONDON

The Marine Ecosystems Research Programme (MERP) is funded by the Natural Environment Research Council (NERC) and the Department for Environment, Food and Rural Affairs (Defra). This symposium will focus on pioneering research, scientific advancements and new tools for marine ecosystem management.

Further information will be made available on the MERC website: (<http://www.marine-ecosystems.org.uk/>)
email: marine.ecosystems@pml.ac.uk

25 - 26 April 2018

7TH ANNUAL SMART WATER SYSTEMS CONFERENCE

LONDON

This SMi conference will focus challenges and new developments of Smart Water Meter implementation - such as increasing water demand, meter reading challenges and customer focused approaches.

For further details visit the SMi website: (<https://www.smi-online.co.uk/utility/uk/smart-water-systems>)
email: events@smi-online.co.uk

26 - 27 April 2018

INSTITUTE OF WATER NORTHERN IRELAND AREA ANNUAL CONFERENCE: Making the Best of Both Worlds

NEWRY, Co. DOWN, NORTHERN IRELAND

This conference will discuss opportunities to be grasped and difficulties to be faced across the full range of services provided by water companies in Northern Ireland.

For further details visit the Institute of Water website: (<https://www.instituteofwater.org.uk/events-info/764/>)
email: Lucy Archer lucy@instituteofwater.org.uk

26 - 28 April 2018

RESILIENT CITIES 2018: 9TH GLOBAL FORUM ON URBAN RESILIENCE AND ADAPTATION

BONN, GERMANY

This annual forum is organized by ICLEI - Local Governments for Sustainability and co-hosted with the City of Bonn, Germany. It will focus on: stocktaking - reviewing the state of urban resilience and local implementation of the 2030 Agenda for Sustainable Development; social cohesion; resilient and

resource efficient cities; and reinventing business as usual - private sector engagement in resilience building. Themes will cover a variety of key resilience topics including: ecosystem-based adaptation; governance and collaboration; urban risk data and indicators; adaptation and Disaster Risk Reduction planning and policy.

For further details visit the ICLEI website: (<http://resilient-cities.iclei.org/>) **email:** resilient.cities@iclei.org

MAY

1 - 3 May 2018

INTRODUCTION TO COASTAL & MARINE GIS

ABPmer OFFICES, SOUTHAMPTON

This 3-day course is delivered by ABPmer's GIS consultants and Geodata's GIS trainers. It uses case studies and hands-on activities to show how marine and coastal datasets can support decision-making.

For further details visit the CMS or Deodata website: (<http://www.cmscoms.com/?p=11293>)
(<http://www.geodata.soton.ac.uk/geodata/training/Courses>)
email: Nicky Dewey Ndewey@abpmer.co.uk

3 May 2018

INSTITUTE OF WATER SCIENCE CONFERENCE 2018: Application of the Sciences across the World of Water

UNIVERSITY OF YORK, HESLINGTON, YORK

This Institute of Water Science conference will take place at the National STEM Learning Centre in York.

Further information will be made available on the Institute of Water website: (<https://www.instituteofwater.org.uk/events-info/748/>) **email:** info@instituteofwater.org.uk

3 May 2018

ENRICHING THE UK'S BIODIVERSITY: Preventing Wildlife Degradation and Assessing Future Policy for Ecological Conservation

LONDON

This Public Policy Exchange symposium provides an opportunity for local authorities, environmental groups, third sector organisations and other key stakeholders to identify priorities for achieving biodiversity and conservation targets. It will also enable all delegates to share best practice in protecting vital habitats and decreasing biodiversity loss in local areas.

For further details visit the Public Policy Exchange website: (<http://www.publicpolicyexchange.co.uk/events/IE03-PPE?ss=em&tg=1a>)
email: info@publicpolicyexchange.co.uk

6 - 9 May 2018

FRIEND 2018: International Conference on African Large River Basin Hydrology

BLIDA, ALGERIA

This Conference is organised under the UNESCO's FRIEND WATER program, within the International Hydrological Program. It will focus special attention to strategies for the sound management, rational use and protection of water resources, based on technical and scientific tools.

For further details visit the conference website: (<http://friend2018.ensh.dz/index.html>)
email: friend2018.blida@ensh.dz

NEW ENTRY

NEW ENTRY

7 - 8 May 2018

**WATER ENVIRONMENT & REUSE
FOUNDATION RESEARCH CONFERENCE
2018: Advancing Reuse & Integrated Water**

ATLANTA, GEORGIA, USA

The WE&RF Research Conference, in partnership with the Water Research Foundation, is designed to help communities prepare for the future with a comprehensive program offering innovative approaches and creative solutions for managing our water resources. The program covering the latest research addressing the challenges of integrated water management and reuse will include two keynote sessions, plenary/panel discussions, multiple tracks of sessions, poster presentations, and technical tours.

Further information will be made available on the WERF website: (<http://www.werf.org/2018researchconference>)
email: Kelsey Beveridge kbeveridge@werf.org

7 - 9 May 2018

WATER LOSS 2018

CAPE TOWN, SOUTH AFRICA

This biennial Water Loss conference and exhibition will be hosted by the IWA Water Loss Specialist Group, together with City Of Cape Town. It will discuss the latest developments, strategies, techniques and applications of international best practices in Non-Revenue Water Management. There will also be a 1-day pre-conference workshop on 6 May 2018 to provide an introduction to the issue of Non-Revenue Water Management and an overview of the latest IWA Methodology for reducing water losses from Municipal water supply systems.

Further information will be made available on the event website: (<http://www.waterloss2018.com/>)
email: Kgomotso Molefi info@waterloss2018.com

7 - 12 May 2018

**10TH EASTERN EUROPEAN IWA YOUNG
WATER PROFESSIONALS CONFERENCE: New
Technologies in Water Sector**

ZAGREB, CROATIA

This anniversary YWP conference will have a special extended programme including practical workshops and scientific presentations with two parallel sessions, one focusing on water management, another on water treatment technologies.

For further details visit the IWA or conference website: (<http://www.iwa-network.org/events/10th-eastern-european-iwa-ywp-conference/>) (<http://iwa-ywp.eu/>)
email: Dr Maryna Feierabend iwa.ywp.2018@gmail.com

8 - 10 May 2018

**RSHS'18: REMOTE SENSING & HYDROLOGY
SYMPOSIUM (ICRS-IAHS)**

**ANDALUSIAN INSTITUTE FOR EARTH SYSTEM
RESEARCH (IISTA), UNIVERSITY OF CORDOBA, SPAIN**

RSHS'18 is a meeting point for researchers from both the hydrology and remote sensing communities, and brings together their joint experience in Earth Observation for developing innovative and environmentally-sustainable water resources and basin management. The theme is 'Earth Observation for Integrated Water and Basin Management: New possibilities and challenges for adaptation to a changing environment'.

For further details visit the IAHS website: (<http://iahs.info/uploads/Meetings/RSHS18.pdf>)
email: Prof. María J. Polo mjpolo@uco.es

8 - 10 May 2018

**OZWATER'18: AUSTRALIA'S INTERNATIONAL
WATER CONFERENCE & EXHIBITION**

BRISBANE, AUSTRALIA

Ozwater'18 is organised by the Australian Water Association and will bring together the who's who in water to discuss the important topics facing the water industry and provide a platform to exchange strategies and ideas on the challenges being faced by the water sector and innovative new solutions.

For further details visit the conference website: (<http://www.ozwater.org/>) **email:** ozwater@awa.asn.au or use the contact form on the above website.

11 - 12 May 2018

**ICWM 2018: 20TH INTERNATIONAL
CONFERENCE ON WATER MANAGEMENT**

MONTREAL, CANADA

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the field of water management.

Further information will be made available on the WASET website: (<https://www.waset.org/conference/2018/05/montreal/ICWM>) **email:** info@waset.org

11 - 12 May 2018

**ICWSFSWM 2018: 20TH INTERNATIONAL
CONFERENCE ON WATER, SANITATION, FOOD
SECURITY AND WASTE MANAGEMENT**

MONTREAL, CANADA

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of water, sanitation, food security and waste management.

14 – 18 May 2018

IFAT: WORLD'S LEADING TRADE FAIR FOR WATER, SEWAGE, WASTE AND RAW MATERIALS MANAGEMENT

MUNICH, GERMANY

IFAT is organised by Messe München as a showcase for strategies and new solutions in water, sewage, waste and raw materials management.

Further information will be made available on the IFAT website: (<http://www.ifat.de/index-2.html>)
email: info@ifat.de

14 – 18 May 2018

2ND IWA DISINFECTION AND DISINFECTION BY-PRODUCTS CONFERENCE

BEIJING, CHINA

This conference is organised by the IWA Disinfection Group. Topics are: Wastewater Systems (small scale); Industrial Water and Wastewater; Water and Health; and Water Governance, Regulation and Utility Management.

Further information will be made available on the IWA website: (<http://www.iwa-network.org/events/the-2nd-disinfection-and-disinfection-by-products-conference/>)
email: chen_water@mail.tsinghua.edu.cn

15 – 18 May 2018

6TH EWA/JSWA/WEF JOINT CONFERENCE: THE RESILIENCE OF THE WATER SECTOR

MUNICH, GERMANY

This joint conference will explore ways in which the sector in its broadest terms is developing resilient systems, assets, and operations so that business continuity risk is well managed in the face of adverse conditions. The intention is to share experience from across the world covering: real life examples of lessons learned from major events; good response and recovery practices; and current activities that are strengthening resilience.

Further information will be made available on the conference website:
(<https://www.resilience-conference2018.com/>)
email: Boryana Dimitrova secretariat@resilience-conference2018.com

16 May 2018

CIWEM URBAN DRAINAGE GROUP SPRING CONFERENCE 2018

AUSTIN COURT, BIRMINGHAM

This UDG Spring Conference is aimed at presenting, exchanging and discussing the latest knowledge and research from within the industry both globally and locally.

For further details visit the CIWEM website:
(<http://www.ciwem.org/events/urban-drainage-group-spring-conference-2018/>) **email:** events@ciwem.org

16 - 17 May 2018

POWERSTEP FINAL CONFERENCE: WASTEWATER TREATMENT PLANTS AS RESOURCE RECOVERY FACTORIES: No Longer a Dream

MUNICH, GERMANY

The conference, supported by IWA, will take place at the IFAT Trade Fair in Munich, Germany. It will consider cutting-edge

technologies that are transforming municipal wastewater treatment plants (WWTP) from net power consumers into energy neutral or even energy positive service providers leading to a circular wastewater economy. Delegates will learn of the European and energy framework in which the WWTP as a renewable energy source operates, whilst also investigating the market deployment potential

Further information will be made available on the IWA or conference website: (<http://www.iwa-network.org/events/wwtp-as-future-resource-recovery-factories-no-longer-a-dream-supported/>) (<http://powerstep.eu/powerstep-final-conference>) **email:** water@iwahq.org or christian.loderer@kompetenz-wasser.de

17 May 2018

CIWEM ANNUAL DINNER 2018

DRAPERS' HALL, LONDON

At this annual dinner CIWEM's President and Trustees entertain leaders from the environment profession and those that contribute to its development. This includes Members of Parliament, Chief Executives and Directors of the water companies, the environment agencies, government departments, environmental consultants and a number of other organisations.

For further details visit the CIWEM website:
(<http://www.ciwem.org/events/ciwem-annual-dinner-2018/>)
email: sophie.dunajko@ciwem.org

18 – 19 May 2018

ICWEEM 2018: 20TH INTERNATIONAL CONFERENCE ON WATER, ENERGY AND ENVIRONMENTAL MANAGEMENT

PARIS, FRANCE

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of water, energy and environmental management.

Further information will be made available on the WASET website: (<http://waset.org/conference/2018/05/montreal/ICWSFSWM>) **email:** info@waset.org

21 - 22 May 2018

SWAN 2018 CONFERENCE: Smart Water: Meeting Tomorrow's Challenges Today

BARCELONA, SPAIN

The Smart Water Networks Forum (SWAN) is the leading global hub for the smart water and wastewater sectors. Now in its 8th year, the annual flagship event brings together progressive global utilities, leading solution providers, researchers, consultants, investors and academics to accelerate the smart water industry.

For further details visit the conference website:
(<https://www.swan2018.com/>) **email:** info@swan-forum.com

22 May 2018

ESRI UK ANNUAL CONFERENCE 2018: Applying the Science of Where

LONDON

This conference will bring together GIS users, from a wide range of industries, to share knowledge and expertise of the

latest trends in GIS technology and the power of visualising data to solve complex issues.

For further details visit the ESRI website:

(<http://www.esriuk.com/about/events/ac/>)

email: annualconference@esriuk.com

22 – 23 May 2018

UTILITY WEEK LIVE 2018: New Models: New Markets

NEC, BIRMINGHAM

This industry exhibition for water, electricity and gas is organised by Faversham House and co-located with edie Live. The Keynote conference 'Driving Transformation & Flexibility in the Utility Sector' will explore new models of leadership and business strategies for future utilities markets. It will provide updates on the progress of the smart meter rollout and lessons learnt from retail market opening in the water sector.

For further information visit the Utility Week Live

website: (<http://www.utilityweeklive.co.uk/>)

email: rachaellyon@fav-house.com

22 – 23 May 2018

EDIE LIVE: ENERGY, SUSTAINABILITY, RESOURCE EFFICIENCY

NEC, BIRMINGHAM

The edie Live exhibition is organised by Faversham House and aims to connect energy, sustainability and resource professionals with the information, ideas and suppliers they need to make their businesses more sustainable. It is co-located with Utility Week Live.

For further information visit the edie Live website:

(<https://exhibition.edie.net/>) **email:** emmalawson@fav-house.com

22 – 24 May 2018

WATER POLLUTION 2018: 14th International Conference on Monitoring, Modelling and Management of Water Pollution

A CORUÑA, SPAIN

This Wessex Institute conference provides a forum for discussion amongst scientists, managers and academics from different areas of water contamination. Topics include: water contamination; water management; wastewater management; flood damage; freshwater quality; water reusage; and many others.

Further information will be made available on the

Wessex Institute website: (<http://www.wessex.ac.uk/conferences/2018/water-pollution-2018>)

email: Irene Moreno Millan imoreno@wessex.ac.uk

23 – 25 May 2018

FRIAR 2018: 6th International Conference on Flood and Urban Water Management

A CORUÑA, SPAIN

FRIAR 2018 is organised by Wessex Institute and Birmingham City University. The conference seeks to develop an improved understanding of emerging flood risk management and urban water management challenges, drawing on the expertise of numerous disciplines. It provides a forum for the development of innovative solutions that can help bring about multiple benefits toward achieving integrated flood risk and urban water management strategies and policy.

Further information will be made available on the

Wessex Institute website: (<http://www.wessex.ac.uk/conferences/2018/friar-2018>)

email: Irene Moreno Millan imoreno@wessex.ac.uk

23 – 25 May 2018

SMICE 2018: SLUDGE MANAGEMENT IN CIRCULAR ECONOMY

ROME, ITALY

This event is part of the IWA Specialist Group on Sludge Management (SGSM) conference series, conceived as an international forum discussing state-of-art, practical applications and problems around sewage sludge. It will look at policy in sludge management and the adoption of new strategies and politics to maximize waste recycling.

For further details visit the IWA or conference website:

(<http://www.iwa-network.org/events/sludge-management-in-circular-economy/>) (<http://smice2018.com/>)

email: water@iwahq.org

26 - 28 May 2018

CRICK BOAT SHOW 2018

CRICK MARINA, CRICK, NORTHAMPTONSHIRE

This Boat Show and Inland Waterways Festival is organised by Waterways World in partnership with the Canal & River Trust and Crick Marina. As well as showcasing the inland waterways industry, the Crick Boat Show will offer family entertainment including boat trips, live music and a variety of food and drink stalls.

FWR will have a stand at this event and we welcome you to visit us.

For further details visit the show website:

(<http://www.crickboatshow.com/>)

email: subscriptions@wwoonline.co.uk

27 – 31 May 2018

15TH IWA LEADING EDGE CONFERENCE ON WATER AND WASTEWATER TECHNOLOGIES: Technological Innovations for Improving Water Security

NANJING, CHINA

The LET conference is organised by the International Water Association and Nanjing University. It is where new insights into how pioneering science, technological innovation and leading practices shape the major transformation in water management that is underway.

For further details visit the conference website:

(<http://iwa-let.org/>) **email:** let@iwahq.org

JUNE

1 – 3 June 2018

BEALE PARK BOAT & OUTDOOR SHOW 2018

BEALE PARK, LOWER BASILDON, READING, BERKSHIRE

This event is set around a lake beside the River Thames There are plans for many exciting features including free seminars, boating experiences and land based activities for all visitors, of all ages. It will include outdoor pursuits, live music, boat rides and a new vintage vehicle show.

For further details visit the show website:

(<http://www.bealeparkboatandoutdoorshow.co.uk/>)

email: info@bealeparkboatandoutdoorshow.co.uk

3 – 7 June 2018

EWRI WORLD ENVIRONMENTAL & WATER RESOURCES CONGRESS: Protecting and Securing Water and the Environment for Future Generations

MINNEAPOLIS, MINNESOTA, USA

This congress of the Environmental & Water Resources Institute (EWRI) of the American Society of Civil Engineers (ASCE) will be a platform for environmental and water resource professionals to discuss the latest topics in water resources. It will include short courses, technical sessions and networking opportunities.

Further information will be made available on the congress website: (<https://www.ewricongress.org/>)
email: Mark Gable mgable@asce.org

3 – 7 June 2018

CMWR 2018: COMPUTATIONAL METHODS IN WATER RESOURCES XXII: Bridging Gaps between Data, Models, and Predictions

SAINT MALO, FRANCE

CMWR 2018 is organised by the University of Rennes. It will present cutting-edge science on modeling in water resources and wishes to address emerging challenges and opportunities to bridge gaps between data, models and predictions.

For further details visit the conference website: (<http://cmwrconference.org/>)
email: Please use the contact form on the above website.

4 – 8 June 2018

I.S. RIVERS: 3RD INTERNATIONAL CONFERENCE: Integrative Sciences and Sustainable Development of Rivers

LYON, FRANCE

This international conference is organised by the GRAIE and ZABR. It will allow scientists, river managers, consultants, and operational stakeholders from Europe and from all over the world to learn about the complexity and diversity of rivers and share their experiences in terms of research and actions. Particular consideration is given to the integration of physical, ecological and social perspectives of the different stakeholders involved in river management.

Further information will be made available on the GRAIE website: (http://www.graie.org/ISRivers/a_index.htm)
email: Sarah Scarrott isrivers@graie.org

6 – 8 June 2018

PROTECTIONS 2018: 3RD International Conference on Protection Against Overtopping GRANGE-OVER-SANDS, CUMBRIA

This conference, organised by HR Wallingford, will bring together leading experts concerned with research and advancements in measures in overtopping protection as a solution for overtopping concerns at levees, dams and seawalls. It will be followed by a technical tour of the Lake District including some of the impressive dams which can be found there.

For further details visit the conference website: (<http://www.protections2018.org>)
email: info@protections2018.org or use the contact form on the above website.

11 – 14 June 2018

ACE18: AWWA ANNUAL CONFERENCE & EXPOSITION

LAS VEGAS, USA

This conference and trade fair is organised by the American Water Works Association and provides a gathering of water professionals to discuss solutions to the complex challenges facing the water industry.

Further information will be made available on the AWWA website: (<http://www.awwa.org/conferences-education/conferences/annual-conference.aspx>) (<http://www.awwa.org/conferences-education/events-calendar.aspx?q=ace&partialfields=type:annual%2bmeeting&resultsperpage=10&sd=2013-08-12>) **email:** service@awwa.org or use the contact form on the above website

11 – 15 June 2018

IWA REGIONAL CONFERENCE ON WATER REUSE AND SALINITY MANAGEMENT

MURCIA, SPAIN

This conference will address the problem of water scarcity induced by climate change in arid and semiarid areas, the use of non-conventional water sources in agriculture and the risk of agricultural land and groundwater salinization in areas where aquifers are significantly depleted.

For further details visit the IWA or conference website: (<http://www.iwa-network.org/events/iwa-regional-conference-on-water-reuse-and-salinity-management/>) (<http://iwaresa.com/>) **email:** info@iwaresa.com

12 – 14 June 2018

CHALLENGE OF SCIENCE LEADERSHIP TRAINING COURSE

THE MARINE STATION, PLYMOUTH UNIVERSITY, PLYMOUTH

CSL is run by the Barefoot Thinking Company and is delivered in conjunction with academic partner, Plymouth University Marine Institute. The aim of the course is to provide scientists, academics and professionals working in the environment and sustainability sectors with a toolkit to help them lead and facilitate effective innovation, communication and collaboration.

For further details visit the CSL or Eventbrite website: (<https://www.scienceleadership.co.uk/dates-and-registration/>) (<https://www.eventbrite.co.uk/e/the-challenge-of-science-leadership-training-course-tickets-42414832907>)
email: info@barefoot-thinking.com

13 – 15 June 2018

8TH INTERNATIONAL WATER RESOURCES MANAGEMENT CONFERENCE OF ICWRS

BEIJING, CHINA

This conference, part of the series of IWRM conferences organized by IAHS-ICWRS, is focused on the innovative and integrated management of water resources. The theme is 'Innovative Water Resources Management under Changing Environment – Understanding Interactions and Making Balance between Humankind and Nature'.

For further details visit the conference website: (<http://iwr2018.bnu.edu.cn/>) **email:** iwr2018@bnu.edu.cn

NEW ENTRY
NEW ENTRY

14 June 2018

FUTURE PROSPECTS FOR THE WATER MARKET AND DEVELOPMENT TOWARDS PR19

LONDON

This Westminster Energy, Environment & Transport Forum Keynote Seminar will provide an opportunity to discuss the next steps for water market reform. The agenda also examines ways to develop resilience in the water network, with long-term challenges around sustainability and climate change, and for fostering innovation.

For further details visit the Westminster Forum Projects website: (<http://www.westminsterforumprojects.co.uk/conference/water-market-18>)
email: info@forumsupport.co.uk

14 – 15 June 2018

SOIL SCIENCE 2018: 2ND ANNUAL CONGRESS ON SOIL AND WATER SCIENCES: New Strategies and Approaches in Soil and Water Resources to Effective Adaptability on Earth

DUBLIN, REPUBLIC OF IRELAND

This conference will provide a technical forum for expressing and learning about the advanced research and developments, as well as for launching new applications, technologies and exploring new trends in the field of soil sciences and water sciences.

For further details visit the Conference Series website: (<https://soilscience.conferenceseries.com/>)
email: Soilscience@earthscienceconferences.com or use the contact form on the above website.

17 – 20 June 2018

1ST INTERNATIONAL CONFERENCE ON WATER SECURITY

TORONTO, CANADA

This Elsevier conference aims to discuss key issues from scientific and policy perspectives, including data needs and how data can be acquired, successful public and private sector business models in different settings, political opportunities and obstacles, what the expressed human needs are, and where the knowledge gaps exist.

For further details visit the Elsevier website: (<https://www.elsevier.com/events/conferences/water-security-conference>) **email:** Please use the contact form on the above website.

20 June 2018

INSTITUTE OF WATER AGM 2018

GLASGOW CALEDONIAN UNIVERSITY, GLASGOW

The Institute of Water AGM will take place in the Hamish Wood Building at Glasgow Caledonian University at 12.00pm. This event is a chance to meet the staff and board from the Institute of Water and pose any questions about membership or the Institute as a whole.

For further details visit the Institute of Water website: (<https://www.instituteofwater.org.uk/events-info/770/>)
email: Lucy Archer lucy@instituteofwater.org.uk

20 June 2018

INSTITUTE OF WATER MEET THE LEADERS 2018

GLASGOW CALEDONIAN UNIVERSITY, GLASGOW

This meeting will be held in the Hamish Wood Building at Glasgow Caledonian University at 2pm. It will be an opportunity to ask leaders of the water industry their views and opinions on topics important in the water industry including current trends and new initiatives.

For further details visit the Institute of Water website: (<https://www.instituteofwater.org.uk/events-info/771/>)
email: Lucy Archer lucy@instituteofwater.org.uk

20 – 22 June 2018

ENVIRONMENTAL IMPACT 2018: 4th International Conference on Environmental and Economic Impact on Sustainable Development

NAPLES, ITALY

This Wessex Institute conference will provide an international forum to discuss the most serious problems affecting sustainable development. It will consider the impact of economic constraints on the environment, taking into account the social aspects as well as the over-use of natural resources. Topics include: environmental policies and planning; natural resources management; ecosystems health; soil contamination; water resources management; sustainable cities; and many others.

Further information will be made available on the Wessex Institute website: (<http://www.wessex.ac.uk/conferences/2018/environmental-impact-2018>)
email: Irene Moreno Millan imoreno@wessex.ac.uk

21 - 22 June 2018

INSTITUTE OF WATER ANNUAL CONFERENCE 2018: Shaping the Future

GLASGOW CALEDONIAN UNIVERSITY, GLASGOW

Chaired by Douglas Millican, Chief Executive, Scottish Water, this year's event will focus on the future of the water industry. It will include topics such as innovation, the circular economy, and digitalisation and will look at the growing expectations of customers and society.

For further details visit the Institute of Water website: (<https://www.instituteofwater.org.uk/events-info/753/>)
email: Lucy Archer lucy@instituteofwater.org.uk

25 – 26 June 2018

ICWPC 2018: 20TH INTERNATIONAL CONFERENCE ON WATER POLLUTION AND CONTROL

PARIS, FRANCE

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of water pollution and control.

Further information will be made available on the WASET website: (<https://www.waset.org/conference/2018/02/paris/ICWPC>) **email:** info@waset.org

25 – 26 June 2018

ICRBMD 2018: 20TH INTERNATIONAL CONFERENCE ON RIVER BASIN MANAGEMENT AND DEVELOPMENT

PARIS, FRANCE

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of river basin management and development.

Further information will be made available on the WASET website:

(<https://waset.org/conference/2018/06/paris/ICRBMD/home>)
email: info@waset.org

25 – 27 June 2018

ecoSTP 2018: 4TH IWA SPECIALIZED INTERNATIONAL CONFERENCE ECOTECHNOLOGIES FOR WASTEWATER TREATMENT

WESTERN UNIVERSITY, LONDON, ONTARIO, CANADA

In cooperation with Western University and Water Environment Federation (WEF), the IWA ecoSTP18 Conference aims to attract a global audience to promote discussion and exchange of ideas through a combination of pre-conference workshops and network-centered conference sessions. A number of panels will discuss the role of transformative technologies for wastewater treatment.

Further information will be made available on the conference or IWA website: (<http://conference.uwo.ca/ecoSTP2018/>) (<http://www.iwa-network.org/events/ecostp-2018/>) **email:** info@ecostp2018.com or use the contact form on the conference website.

25 – 28 June 2018

EMCON2018: 6TH INTERNATIONAL CONFERENCE ON EMERGING ENVIRONMENTAL CONTAMINANTS

OSLO, NORWAY

This conference is organised by EmCon and the Norwegian Institute for Water Research (NIVA) to bring together scientists to present and discuss the latest research on all aspects of emerging contaminants. It will cover sources and exposure pathways, treatment processes and technologies, sampling, analytical methods and approaches, effects in aquatic and terrestrial environments, risk assessment and management and the regulations and policy.

Further information will be made available on the conference website: (<https://emcon2018.no/>)
email: Please use the contact form on the above website.

27 – 29 June 2018

INDOWATER 2018 - 14TH INTERNATIONAL WATER, WASTEWATER & RECYCLING TECHNOLOGY EXPO

SURABAYA, INDONESIA

INDOWATER is Indonesia's largest international water and wastewater trade show and is organised by "PT. Napindo Media Ashatama" in association with MEREBO Messe Marketing. It will provide a platform for industry professionals to learn about the

latest trends and developments and to build valuable partnerships. It is also where water supply & sewerage companies, consultants, contractors, industrial wastewater treatment professionals and decision makers look for cost-effective solutions and technology.

For further details visit the INDOWATER website:

(<http://www.indowater.merebo.com/>)

email: contact@merebo.com or agnes@merebo.com

28 – 30 June 2018

IWTC 2018: 21ST INTERNATIONAL WATER TECHNOLOGY CONFERENCE

PORT SAID, EGYPT

This conference is organised by the International Water Technology Association (IWTA) in cooperation with Mansoura University. It brings together experts, researchers, equipment manufacturers and consultants, in order to discuss the latest state of the art in the field of water and waste-water technologies.

For further details visit the conference website:

(<http://iwtc.info/>) **email:** conference@iwtc.info or use the contact form on the above website.

JULY

1 – 6 July 2018

HIC 2018: 13TH INTERNATIONAL CONFERENCE ON HYDROINFORMATICS: Water and Environmental Challenges in a Changing World

PALERMO, ITALY

This IAHR/IWA Joint Committee on Hydroinformatics conference is hosted by the University of Palermo as a forum for exchanging ideas, promoting ground-breaking technologies, proposing new extensive collaborations, and finding new solutions for water management. Themes will be: Technologies for Water Management and Monitoring; remote sensing; big-data, knowledge and water data management; hydraulic and hydrological modelling; climate change impacts; environmental and coastal hydroinformatics.

Further information will be made available on the conference website: (<https://www.hic2018.org/>)

(http://www.gii-idraulica.net/files/Call%20for%20sessions_HIC2018.pdf) **email:** info@hic2018.org

3 – 5 July 2018

GOOD PRACTICE STAKEHOLDER PARTICIPATION: With a Focus on the Environment

NR EAST BRABOURNE, KENT

This Dialogue Matters training course will help participants understand the principles of stakeholder participation and train them in practical facilitation skills and process design.

For further details visit the CMS or Dialogue Matters website: (<http://www.cmscoms.com/?p=12434>)

(<http://www.dialoguematters.co.uk/>)

email: training@dialoguematters.co.uk

8 – 12 July 2018

7TH SINGAPORE INTERNATIONAL WATER WEEK SINGAPORE

SIWW is organised by Singapore International Water Week Pte Ltd. It will gather stakeholders from the global water industry

to share best practices and showcase the latest technologies. The main sectors include catchment management, clean transport, climate change and flood control, sanitation, sludge handling and treatment, waste control and management, wastewater collection and treatment, and water distribution, treatment and reuse. The Water Convention welcomes water practitioners and leaders to share their best practices, strategies and applied technological solutions.

Further information will be made available on the SIWW website: (<http://www.siww.com.sg/>) (<http://www.siww.com.sg/water-convention>) **email:** info@siww.com.sg

9 – 10 July 2018

BI-ANNUAL SCOTTISH FISHING CONFERENCE (BASFC): Fisheries Management in Changing Times

UNIVERSITY OF ST ANDREWS, ST ANDREWS

This conference is organised by Fisheries Innovation Scotland (FIS) and will focus on the future of the fishing and seafood industry in Scotland. Day 1 will include presentations from research teams who have worked on FIS projects over the last two years. Day 2 will be opened by the Cabinet Secretary for Rural Affairs, Food and the Environment and will feature presentations from the Scottish industry, Fisheries Ministers from other nearby fishing nations, and senior figures from the NGO, retail and marine sciences sectors.

For further details visit the FIS website: (<http://www.fiscot.org/conference/2018-basfc/>) **email:** s.gray@fiscot.org or use the contact form on the above website.

16 – 19 July 2018

6TH ANNUAL INTERNATIONAL FORUM ON WATER

ATHENS, GREECE

This event is organised by the Athens Institute for Education and Research (ATINER) to bring together academics and researchers from scientific subjects related to water.

Further information will be made available on the ATINER website: (<https://www.atiner.gr/water>) **email:** atiner@atiner.gr

16 – 19 July 2018

6TH ANNUAL INTERNATIONAL CONFERENCE ON ECOLOGY, ECOSYSTEMS AND CLIMATE CHANGE

ATHENS, GREECE

This Center for Environmental Pollution, Climate & Ecology (CEPCE) conference will be held at the Athens Institute for Education and Research (ATINER). The aim of the conference is to bring together academics and researchers from all scientific subject areas who have done work on ecology, ecosystems, climate change and other related subjects.

Further information will be made available on the ATINER website: (<https://www.atiner.gr/ecology>) **email:** atiner@atiner.gr

17 - 19 July 2018

INTRODUCTION TO COASTAL & MARINE GIS

ABPmer OFFICES, SOUTHAMPTON

This 3-day course is delivered by ABPmer's GIS consultants and Geodata's GIS trainers. It uses case studies and hands-

on activities to show how marine and coastal datasets can support decision-making.

For further details visit the CMS or Deodata website: (<http://www.cmscoms.com/?p=11293>) (<http://www.geodata.soton.ac.uk/geodata/training/Courses>) **email:** Nicky Dewey Ndewey@abpmer.co.uk

17 – 21 July 2018

WRE 2018: 4TH International Conference on Water Resource and Environment

I-SHOU UNIVERSITY, KAOHSIUNG CITY, TAIWAN

WRE 2018 will provide a platform for researchers from all over the world to present and exchange their latest findings about water resources and environment. The plenary session will include keynote speeches, invited speeches, poster presentations, and oral presentations.

Further information will be made available on the conference website: (<http://www.wreconf.org/>) **email:** info@wreconf.org

18 July 2018

DIFFUSE POLLUTION: Evidence, Effective Practice and Lessons for Policy, Practice and Investment

LONDON

This CIWEM conference aims to present innovative case studies, collaborative approaches and facilitate discussion on the scale of the issue and current progress on both rural and urban diffuse pollution.

Further information will be made available on the CIWEM website: (<http://www.ciwem.org/events/diffuse-pollution-evidence-effective-practice-and-lessons-for-policy-practice-and-investment-call-for-papers/>) **email:** sophie@ciwem.org

24 July 2018

PANG VALLEY FLOOD FORUM MEETING

PANGBOURNE VILLAGE HALL, PANGBOURNE, READING

This is the quarterly meeting of The Pang Valley Flood Forum which was set up in January 2013 as a joint initiative by West Berkshire Council, the Environment Agency and Thames Water. The Forum is run by volunteers working collaboratively to reduce flood risk throughout the communities in the Pang Valley.

For further details visit the Forum website: (<http://www.floodalleviation.uk/>) **email:** pangvalleyfloodforum@gmail.com

AUGUST

12 – 17 August 2018

ICID 2018: International Conference and 69TH International Executive Council Meeting of the International Commission on Irrigation and Drainage: Innovative and Sustainable Agri-Water Management: Adapting to a Variable and Changing Climate

SASKATOON, SASKATCHEWAN, CANADA

This ICID conference and meeting provides an opportunity for participants to network and share their knowledge and expertise related to sustainable agriculture. This includes water management, irrigation, drainage, livestock and crop production

– all important aspects that support stable agriculture production with the goal of improving water and food security.

Further information will be made available on the ICID website: (<http://www.icid2018.org/>) **email:** info@icid2018.org

19 – 24 August 2018

ISE 2018: 12TH INTERNATIONAL SYMPOSIUM ON ECOHYDRAULICS

TOKYO, JAPAN

This symposium will jointly be convened by the International Association for Hydro-Environment Engineering and Research (IAHR) and International Society for River Science (ISRS). It aims to bridge the knowledge gap between hydraulics and biological systems in Hydro-Environment. The major themes are: aquatic biota movements; e-flows, i.e. environmental, instream or ecological flow regimes; and lake and river habitat restoration.

For further details visit the symposium website: (<http://ise2018.com/>) **email:** Please use the contact form on the above website.

20 – 21 August 2018

ICAIWM 2018: 20TH INTERNATIONAL CONFERENCE ON ADAPTIVE AND INTEGRATIVE WATER MANAGEMENT

LONDON

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary platform for the presentation of new advances and research results in the fields of Adaptive and Integrative Water Management.

Further information will be made available on the WASET website: (<https://waset.org/conference/2018/08/london/ICAIWM/call-for-papers>) **email:** info@waset.org

26 – 31 August 2018

WORLD WATER WEEK 2018

STOCKHOLM, SWEDEN

World Water Week is organised by the Stockholm International Water Institute (SIWI) and has been an annual focal point for the globe's water issues since 1991. The 2018 theme will be 'Water, ecosystems and human development'.

Further information will be made available on the World Water Week website: (<http://www.worldwaterweek.org/>) (<http://www.worldwaterweek.org/world-water-week-2018-call-for-engagement/>) **email:** siwi@siwi.org or worldwaterweek@mci-group.com

SEPTEMBER

2 – 5 September 2018

21ST CONGRESS OF ASIA PACIFIC DIVISION OF INTERNATIONAL ASSOCIATION FOR HYDRO-ENVIRONMENT ENGINEERING AND RESEARCH (IAHR-APD): Multi-Perspective Water for Sustainable Development

YOGYAKARTA, INDONESIA

This congress aims to share Hydro-Environment related knowledge and experiences. Sub-themes include: river and river

basin engineering and management - river hydraulics; port, harbours, coastal engineering and management; environmental hydraulics and hydrology; irrigation, water supply and sanitation; water resources; hydroinformatics; and others.

Further information will be made available on the congress website: (<http://iahrapd2018.ugm.ac.id/>) **email:** radianta@ugm.ac.id

3 – 6 September 2018

DESALINATION FOR THE ENVIRONMENT: CLEAN WATER AND ENERGY

ATHENS, GREECE

This European Desalination Society conference will be devoted to advances towards providing fresh water for all, at affordable cost and at economical energy requirements. It will overview the most recent developments in desalination technology, its cost and extent of application, including socio-economic and environmental issues.

For further details visit the EDS website: (<http://www.desline.com/congress/Athens2018/home.html>) **email:** desline.com@gmail.com

4 – 6 September 2018

10TH INTERNATIONAL CONFERENCE ON SUSTAINABLE DEVELOPMENT AND PLANNING

SIENA, ITALY

Sustainable Development and Planning 2018 is organised by Wessex Institute and University of Siena, Italy. It will bring together academics, policy makers, practitioners and other stakeholders to discuss the latest advances in the field. It will cover new academic findings and their application in planning and development strategies, assessment tools and decision making processes. Topics will include environmental management, climate change, urban flooding and drainage and many others.

Further information will be made available on the Wessex Institute website: (<http://www.wessex.ac.uk/conferences/2018/sustainable-development-and-planning-2018>) **email:** Irene Moreno Millan imoreno@wessex.ac.uk

5 – 7 September 2018

WATEF CONFERENCE 2018

UNIVERSITY OF AVEIRO, PORTUGAL

This is the first international conference organised by the Water Efficiency Network (WATEF). The conference theme is 'The Future of Water in Europe: Local, Regional and Global Best Practice'. It will include a special session 'Resilience through cooperation and innovation'.

Further information will be made available on the WATEF or Institute of Water website: (<https://www.watefnetwork.co.uk/conference>) (<https://www.instituteofwater.org.uk/events-info/645/>) **email:** info@watefnetwork.co.uk

5 - 8 September 2018

RIVER FLOW 2018: 9TH INTERNATIONAL CONFERENCE ON FLUVIAL HYDRAULICS

LYON-VILLEURBANNE, FRANCE

River Flow 2018 is organised by the International Association for Hydro-Environment Engineering and Research (IAHR). It will focus on the latest findings in the field of fluvial hydraulics, addressing fundamental issues related to fluid processes

of sediments and pollutants in rivers. More practical issues related to river morphodynamics, river restoration, and river interaction with structures will be discussed.

For further information visit the conference website:
(<https://riverflow2018.irstea.fr/>) **email:** riverflow2018@irstea.fr

10 - 12 September 2018

WORLD CANALS CONFERENCE 2018

ATHLONE, REPUBLIC OF IRELAND

WCC 2018 is hosted by Waterways Ireland and the Inland Waterways Association of Ireland. It will look at regeneration projects on inland waterways and the re-imagining of the waterways as linear parks & amenity spaces to cater for all lovers of water.

For further information visit the conference website:
(<http://wccireland2018.com/>)
email: WCC2018@conferencepartners.ie

16 - 21 September 2018

IWA WORLD WATER CONGRESS & EXHIBITION 2018: Shaping Our Water Future

TOKYO, JAPAN

This global event for water professionals offers new insights into how pioneering science, technological innovation and leading practices shape the major transformation in water management that is underway.

Further information will be made available on the IWA website: (<http://www.iwa-network.org/news/tokyo-2018-first-announcement/>) **email:** water@iwahq.org

23 - 26 September 2018

UDM2018: 11TH INTERNATIONAL CONFERENCE ON URBAN DRAINAGE MODELLING

PALERMO, ITALY

The UDM Conference seeks to create a forum for discussion amongst scientists, professionals and academia on urban drainage. It deals with topics related to modelling the urban drainage system (e.g., water quality and quantity, urban flooding and modelling, urban flood forecasting and risk analysis, socio-economic interactions and modelling tools, etc.) by focusing on the interrelationships among the entire water cycle, environment and society.

For further information visit the conference website:
(<https://www.udm2018.org/conference/>)
email: info@udm2018.org

24 - 25 September 2018

ICWRM 2018: 20TH INTERNATIONAL CONFERENCE ON WATER RESOURCES MANAGEMENT

DUBAI, UAE

This conference is organised by the World Academy of Science, Engineering and Technology to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results. It provides an interdisciplinary forum for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of Water Resources Management.

Further information will be made available on the WASET website: (<https://waset.org/conference/2018/09/dubai/ICWRM/home>) **email:** info@waset.org

29 September – 3 October 2018

WEFTEC 2018

NEW ORLEANS, LA, USA

WEFTEC, the Water Environment Federation's Annual Technical Exhibition and Conference, provides an exhibition and technical program giving access to the field's cutting-edge information, technologies, services, and networking.

Further details will be made available on the WEFTEC website: (<http://www.weftec.org/>)
email: Please use the contact form on the above website.

30 September – 4 October 2018

ICWS 2018: 16TH IWA INTERNATIONAL CONFERENCE ON WETLAND SYSTEMS FOR WATER POLLUTION CONTROL

VALENCIA, SPAIN

This IWA conference is organised by the Research Institute of Water and Environment at Technical University of Valencia, Spain. It follows the tradition of biennial meetings of theoreticians, engineers and practitioners working on treatment wetlands. There will be a special emphasis on linking wetlands systems, pollution control and biodiversity.

For further information visit the IWA or conference website: (<http://www.iwa-network.org/events/16th-international-conference-of-the-iwa-specialist-group-on-wetland-systems-for-water-pollution-control/>) (<http://icws2018.webs.upv.es/>)
email: iwawetlands2018@upv.es

OCTOBER

10 – 11 October 2018

FLOOD EXPO 2018

EXCEL, LONDON

This exhibition and conference is designed to help flood professionals and property owners discover the latest innovative products, services and strategies that transform the way flooding is predicted, prevented and managed. It will include debates, seminars and live demos on the Thames.

For further details visit the Flood Expo website:
(<http://www.thefloodexpo.co.uk/>) **email:** Please use the 'Leave a message' or 'Free tickets' form on the above website.

14 – 17 October 2018

21ST INTERNATIONAL RIVERSYMPIOSIUM 2018

SYDNEY, AUSTRALIA

This symposium is organised by the International River Foundation and provides a platform for river managers, policy developers, scientists, consultants, NGOs and community organisations to share knowledge and innovative ideas on all aspects of river and water management.

For further details visit the symposium website:
(<http://riversymposium.com/>) **email:** irs@riverfoundation.org.au or use the contact form on the above website.

14 – 18 October 2018

15TH IWA INTERNATIONAL SPECIALISED CONFERENCE ON SMALL WATER AND WASTEWATER SYSTEMS

HAIFA, ISRAEL

This conference is organised by the IWA Specialist Group on Small Water and Wastewater Systems. Topics are: Wastewater Systems (small scale); Wastewater Systems (large scale); Water and Health; Water Governance, Regulation and Utility Management; and Treatment Technologies.

Further details will be made available on the IWA

website: (<http://www.iwa-network.org/events/15th-international-specialised-conferences-on-small-water-and-wastewater-systems-2/>) **email:** amgross@bgu.ac.il

15 – 17 October 2018

HYDRO 2018: PROGRESS THROUGH PARTNERSHIPS

GDANSK, POLAND

This conference is organised by the International Journal on Hydropower & Dams and will focus on topics such as: technical innovation; hydro potential and development opportunities; financial challenges; cross-border collaboration; the role and benefits of pumped storage; operation, maintenance and safety; climate and environment; and others.

For further details visit the International Journal on Hydropower & Dams website:

(http://www.hydropower-dams.com/hydro-2018.php?c_id=88) (<http://www.hydropower-dams.com/pdfs/HYDRO2018.pdf>) **email:** Hydro2018@hydropower-dams.com

15 – 19 October 2018

17TH WORLD LAKE CONFERENCE

KASUMIGAURA, IBARAKI, JAPAN

WLC 2018 is organised by the International Lake Environment Committee (ILEC) for multi-sectoral participants (i.e., academia, government, citizens, NGOs and enterprises) to exchange their views and experiences on the sustainable management of lakes and their basins. The main theme will be 'Harmonious coexistence of humans and lakes - toward sustainable ecosystem services'.

Further information will be made available on the

ILEC or conference website: (<http://www.ilec.or.jp/en/wlc>) (<http://www.pref.ibaraki.jp/seikatsukankyo/kantai/kasumigaura/wlcn.html>) **email:** infoilec@ilec.or.jp

23 October 2018

PANG VALLEY FLOOD FORUM MEETING

PANGBOURNE VILLAGE HALL, PANGBOURNE, READING

This is the quarterly meeting of The Pang Valley Flood Forum which was set up in January 2013 as a joint initiative by West Berkshire Council, the Environment Agency and Thames Water. The Forum is run by volunteers working collaboratively to reduce flood risk throughout the communities in the Pang Valley.

For further details visit the Forum website:

(<http://www.floodalleviation.uk/>)

email: pangvalleyfloodforum@gmail.com

31 October - 2 November 2018

IWA REUSE 2018: REGIONAL IWA REUSE INTERNATIONAL CONFERENCE ON WATER RECLAMATION AND REUSE

PHUKET, THAILAND

This International Water Association Regional Conference on opportunities for water reuse in Southeast Asia will feature topics such as South East Asia megacities and rural regions, high tech and low tech solutions, water reuse, algal blooms, distributed water treatment systems, water and tourism, and water reuse policy and culture in South East Asia.

ESWP website: (<https://eswp.com/water/overview/>)

email: eswp@eswp.com

20 – 22 November 2018

GOOD PRACTICE STAKEHOLDER PARTICIPATION: With a Focus on the Environment

NR EAST BRABOURNE, KENT

This Dialogue Matters training course will help participants understand the principles of stakeholder participation and train them in practical facilitation skills and process design.

For further details visit the CMS or Dialogue Matters

website: (<http://www.cmscoms.com/?p=12434>)

(<http://www.dialoguematters.co.uk/>)

email: training@dialoguematters.co.uk

21 – 22 November 2018

WWEM 2018: 8TH INTERNATIONAL CONFERENCE AND EXHIBITION ON WATER, WASTEWATER & ENVIRONMENTAL MONITORING

TELFORD

WWEM is a specialised biennial event focused on measurement, testing and analysis for the water and wastewater and environmental industry. There will be a conference and exhibition and also workshops on case studies, problem solving, new technologies and new applications.

Further information will be made available on the

WWEM website: (<http://www.wwem.uk.com/>)

email: info@wwem.uk.com

NEW ENTRY

NEW ENTRY

27 – 30 November 2018

INDUSTRIAL WATER 2018

FRANKFURT AM MAIN, GERMANY

The Industrial Water conference and exhibition is organised by DECHEMA and supported by IWA. It will consider today's challenges in industrial water management and how new strategies, developments and technologies can make industrial water use more efficient.

For further details visit the IWA or DECHEMA website:
(<http://www.iwa-network.org/events/pretreatment-industrial-water-supported/>) (<http://dechema.de/en/industrialwater.html>)
email: diaz@dechema.de

DECEMBER

3 – 5 December 2018

BALLAST WATER MANAGEMENT TECHNOLOGY CONFERENCE 2018

LONDON

In this BWMTech conference ballast water industry professionals came together to untangle the international ballast regulation web, discuss successful system installations and create resilient ballast water treatment strategies.

Further information will be made available on the conference website:
(<https://maritime.knect365.com/ballast-water-management-technology/>) **email:** maritime@knect365.com

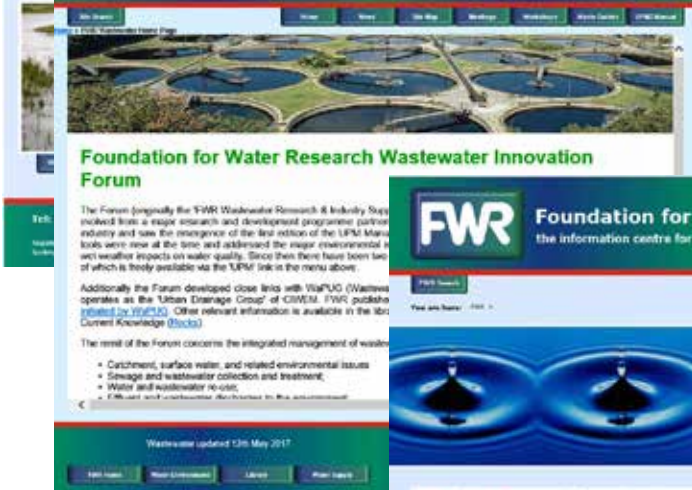

10 – 14 December 2018

FISH PASSAGE 2018: INTERNATIONAL CONFERENCE ON RIVER CONNECTIVITY: Incorporating the 1st International Symposium on Hydropower and Fish Management

ALBURY, NEW SOUTH WALES, AUSTRALIA

Fish Passage 2018 will be of interest to researchers, educators, practitioners, funders, and regulators who have an interest in advancements in technical fishways, nature-like fishways, stream restoration and stabilization, dam removal, environmental flows and fish responses.

For further details visit the IWA or DECHEMA website:
(<https://fishpassage.umass.edu/>)
email: Ruby Hatfield RH@asnevents.net.au

Visit our FWR website

The Foundation for Water Research website has five information areas:

1. Water Supply
2. Wastewater
3. Water Environment
4. FWR Library
5. Catchment Partnership

www.fwr.org

What does the FWR Website provide?

- Access to a free comprehensive website including information notes, technical reports and publications.
- Quarterly FWR Newsletters, and also frequently updated FWR Events Diary and Environmental News Highlights.
- Information about water supply, wastewater, WFD and integrated river basin management, the South Chilterns Catchment Partnership, and water related publications.
